A SOUNDER FOUNDATION FOR INTESTINAL HEALTH

IT'S human nature to keep on hoping. No matter how constipated and sluggish you may feel today, you tell yourself that tomorrow will be another day—a *healsbier* day. "Somelucky day," you say to yourself, "I'll find a way to solve my constipation problem. I'll find a way to win back youthful regularity."

Perhaps Saraka* is the way you have been looking for. Saraka is the laxative with "exercising action"—the laxative that helps turn lazy intestinal muscles into energetic workers for your better health.

The package of Saraka illustrated below is filled with tiny brown granules. Drink a glass of water—and swallow down a spoonful of them without chewing. Inside the intestines, these granules absorb the water and turn into soft, smooth BULK. This extra bulk is the secret of Saraka's famous exercising action. It gives the intestinal muscles something to exercise on.

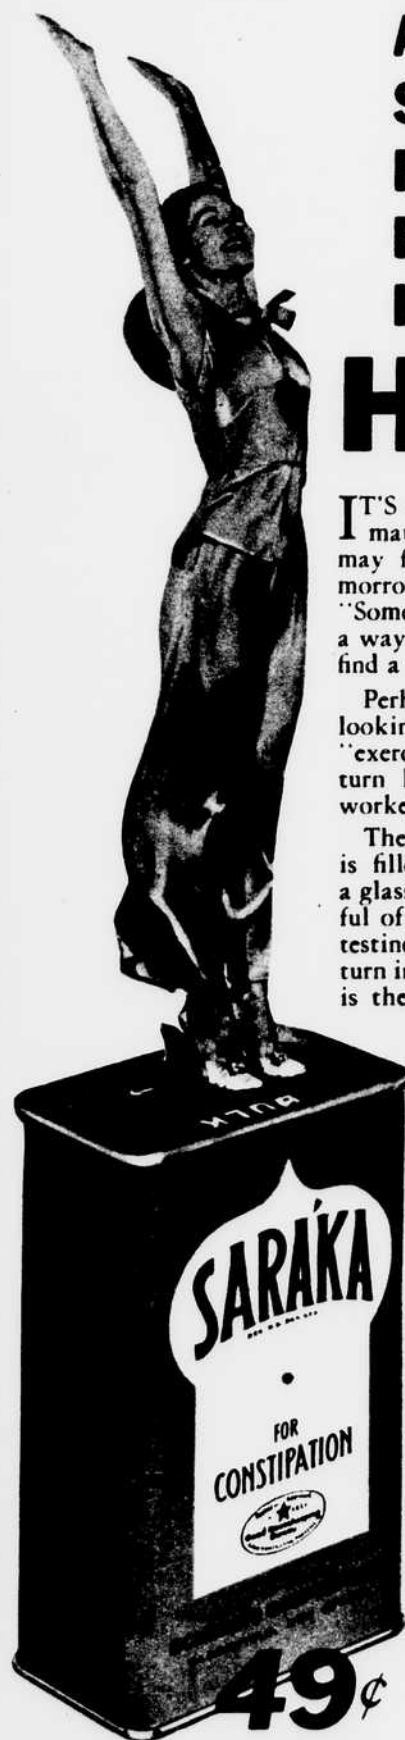

Results are thorough but not violent. Many users are reminded of their healthy childhood days when constipation was unknown.

In addition to supplying needed bulk, Saraka also contains a specially treated cortex frangula which mildly stimulates the intestinal muscles. So you have *Bulk Plus Motility**. Ask your doctor about this double action. We are confident he will tell you it is safe and non-habit forming. Then try Saraka. See for yourself how pleasant it is to take—and how pleasant after taking. Ask your druggist for the new Handi-size. Or mail the coupon for the free trial-size tin.

TEAR OFF AND MAIL

SCHERING CORPORATION
Dept. 398, Bloomfield, N. J.
Canadian Address: Schering (Canada) Ltd.,
P. O. Box 384, Montreal, Que.

Sign below for a free trial-size tin of Saraka. Offer good only in U. S. A. and Canada.

NEW HANDI-SIZE

If you only need a laxative occasionally, ask your druggist for the new "Handi-size" of Saraka. This new 49-cent size is more than twice as large as the can illustrated above.
